

SC30TX STUMP CUTTER

LONGEST TRACKS IN ITS CLASS.

Provides consistent stability with easier loading and unloading of the machine compared to shorter tracked models. The longer tracks offer best-in-class low ground pressure, which helps reduce the possibility of turf damage.

SMOOTH OPERATION.

The exclusive SmartSweep™ control system monitors engine load and provides continuous feedback, resulting in a smooth and consistent cutter wheel sweep rate.

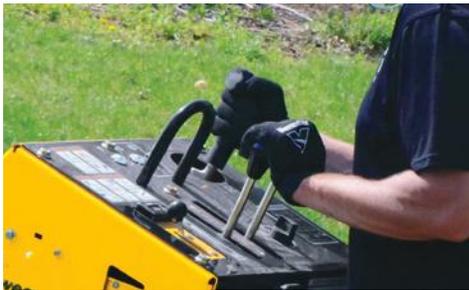

PATENTED YELLOW JACKET™ CUTTER SYSTEM.

The Vermeer-exclusive Yellow Jacket cutter system is designed to provide faster, easier serviceability, as well as extended pocket and tooth life.

25 HP (18.6 KW) EFI ENGINE.

Starts well during cold weather, makes choke cables obsolete and offers improved fuel economy over comparable carbureted gas engines.

OPERATOR PRESENCE SYSTEM.

Control handle for the boom swing and boom raise/lower is equipped with operator presence capacitance-sensing handle. This system is intended to help protect the operator.

HYDRAULICALLY DRIVEN CUTTER WHEEL AND GROUND DRIVE.

The elimination of belts or chain drives reduces service and maintenance.
